

Please do not expand LPFM station service. I currently listen to Air 1 on 88.7 in Phoenix, Arizona. I am disheartened to learn that if you expand LPFM service, these stations will take priority over FM translators. I listen to Air 1 every possibly minute I can. This station has given meaning to my life. They encourage me and guide me in my relationship with Jesus Christ. This station has saved lives. I have been listening when someone called in on the verge of suicide and they turned their life over to God. If I couldn't get Air 1 to come in on my radio, I would turn it off. There is nothing else worth listening to. In conclusion, the service provided by Air 1 uplifts the community and saves lives and you should not allow the LPFM service to take precedence over FM translators.

Thank you,  
Brandi K. Havir
